SECTION 1: INTERPRETATION & DEFINITIONS

In this Agreement, the following terms bear the meanings assigned to them below:

TERM	DEFINITION
"Agreement"	This Master Confidentiality and Non-Disclosure Agreement, including all annexures, as executed between the parties on the Effective Date.
"Bassani Health"	Bassani Health (Pty) Ltd, Registration No. 2024/710124/07, VAT No. 4430323131, a SAHPRA-licensed pharmaceutical manufacturer, distributor, and cultivator operating under the Bassani Manufacturing Licences.
"Bassani Manufacturing Licences"	The three complementary licences held by Bassani Health: (i) SAHPRA Section 22C Cultivation Licence No. 0000000078MC-v3; (ii) SAHPRA Section 22C(1)(b) Licence to Manufacture Medicines (Packer) No. 0000001473.-.2; and (iii) Department of Health Manufacturing Pharmacy Licence No. GP00455M. All three must be read conjunctively.
"Bassani Product Suite"	The full range of products and outputs that Bassani Health is licensed to produce and distribute, comprising: pharmaceutical-grade dried cannabis flower; cannabis pre-roll products; cannabis-infused gummies; cannabis vape products; cannabis distillate (≥80% total cannabinoids); cannabis clones (rooted cuttings from licensed mother plants); and cannabis mother plants — distributed through the applicable channel (domestic Section 21, pharmaceutical export, or licensed cultivator B2B supply) as governed by the applicable Bassani Manufacturing Licence.
"Clones"	Rooted cannabis cuttings taken from Bassani Health's licensed mother plant stock, cultivated under the Cultivation Licence, and supplied to SAHPRA-licensed domestic cultivators or exported to licensed international recipients. Clones represent the propagation output of Bassani Health's cultivation programme and are subject to cultivar-specific intellectual property protections.
"Confidential Information"	All information and data, in any form or medium, disclosed by or on behalf of the Disclosing Party to the Receiving Party in connection with the Permitted Purpose, whether or not marked or designated as confidential, including without limitation: (i) business plans, financial models, pricing structures, investor materials, and commercial strategies; (ii) pharmaceutical manufacturing formulations, MBRs, BMRs, cannabinoid profiles, raw material specifications, and extraction processes; (iii) SAHPRA licence conditions, SAHPRA correspondence, Section 21 documentation, and regulatory strategy; (iv) Named Patient pipeline data, patient counts, Section 21 Authorisation volumes, and Clinify portal data; (v) reseller codes, territory maps, override structures, commission schedules, and all terms of the Bassani Health commercial document suite; (vi) cannabis cultivar data, mother plant genetics, clone propagation protocols, and cultivar-specific yield and cannabinoid performance data; (vii) export market relationships, international distributor identities, and export pricing; (viii) supplier identities, raw material supply agreements, cultivator relationships, and MMQ commitments; (ix) employee, contractor, and advisor identities, remuneration, and responsibilities; and (x) any information that a reasonable person in the pharmaceutical cannabis industry would understand to be confidential given its nature and the circumstances of disclosure. For the avoidance of doubt, orally disclosed information is Confidential Information whether or not subsequently confirmed in writing.
"Counterparty"	The entity identified on the cover page of this Agreement as the counterparty to Bassani Health.
"Disclosing Party"	The party disclosing Confidential Information, as designated on the cover page. Where the Agreement is mutual, both parties are simultaneously Disclosing Parties and Receiving Parties.
"Domestic Channel — Section 21"	The SAHPRA-regulated Named Patient dispensing framework through which Bassani Health's Pharmaceutical Medicines are dispensed to Named Patients

	holding valid Scripts and Section 21 Authorisations, through authorised Collection Point Stores and Registered Pharmacies.
"Export Channel"	The international pharmaceutical distribution channel through which Bassani Health exports its Pharmaceutical Medicines, cannabis distillate, cannabis clones, and cannabis mother plants to licensed international recipients, authorised by the export provisions of the Packer Licence Annexure.
"Mother Plants"	Bassani Health's licensed cannabis mother plants maintained under the Cultivation Licence as the genetic source for Clone production. Mother plant genetics, cultivar profiles, and propagation data are among the most commercially sensitive elements of Bassani Health's Confidential Information.
"Permitted Purpose"	The specific purpose(s) for which Confidential Information is disclosed under this Agreement, as identified by the tick boxes on the cover page of this Agreement.
"Permitted Recipients"	Directors, officers, employees, professional advisers (legal, financial, regulatory), auditors, and financiers of the Receiving Party who: (a) have a genuine need to know the Confidential Information for the Permitted Purpose; (b) are informed of the confidential nature of the information; and (c) are bound by written confidentiality obligations at least as protective as this Agreement.
"Personal Information"	Information as defined in the Protection of Personal Information Act, No. 4 of 2013 (POPIA), including any information that can be used to identify a natural person.
"POPIA"	The Protection of Personal Information Act, No. 4 of 2013, and all regulations, codes of conduct, and determinations made thereunder.
"Receiving Party"	The party receiving Confidential Information, as designated on the cover page. Where the Agreement is mutual, both parties are simultaneously Receiving Parties and Disclosing Parties.
"Special Personal Information"	Personal Information as defined in Section 26 of POPIA — including health information, biometric information, and information concerning a person's physical or mental health. Named Patient data processed in connection with the Permitted Purpose is Special Personal Information subject to the heightened protection requirements of Section 26 of POPIA.

Words importing the singular include the plural and vice versa. Headings are for reference only. The rule of construction that an agreement shall be interpreted against the party responsible for drafting shall not apply.

SECTION 2: RECITALS

WHEREAS Bassani Health (Pty) Ltd is a fully integrated pharmaceutical cannabis company, currently the only South African pharmaceutical cannabis operator simultaneously holding all four licences required for end-to-end pharmaceutical-grade cannabis-based medicine supply — being the SAHPRA Section 22C Cultivation Licence, the SAHPRA Section 22C(1)(b) Licence to Manufacture Medicines (Packer), the Department of Health Manufacturing Pharmacy Licence, and the SAPC A-Grade Pharmacy Owner Certification — together constituting the Bassani Manufacturing Licences;

AND WHEREAS Bassani Health's licensed commercial operations span two primary distribution channels: (i) the domestic Section 21 Named Patient framework, through which pharmaceutical-grade cannabis medicines are dispensed to Named Patients holding valid Scripts and SAHPRA Section 21 Authorisations through authorised Collection Point Stores and Registered Pharmacies; and (ii) the international pharmaceutical export channel, through which the full Bassani Product Suite — including pharmaceutical medicines, cannabis distillate, cannabis clones, and cannabis

mother plants — is exported to licensed international recipients under the express export authority of the Packer Licence Annexure and the Cultivation Licence;

AND WHEREAS the parties wish to explore, develop, or give effect to the Permitted Purpose selected on the cover page of this Agreement, in connection with which Confidential Information — which may include commercially sensitive pharmaceutical, regulatory, financial, patient pipeline, cultivar genetic, clone propagation, export market, and reseller network information — will be disclosed by one or both parties;

AND WHEREAS the parties wish to record the terms on which such Confidential Information will be disclosed, used, and protected;

NOW THEREFORE the parties agree as follows:

SECTION 3: CONFIDENTIALITY OBLIGATIONS

3.1 Non-Disclosure Obligation

The Receiving Party undertakes not to disclose, publish, communicate, or otherwise make available any Confidential Information to any person or entity for any reason or purpose whatsoever, without the prior written consent of the Disclosing Party, other than as expressly permitted by this Agreement.

3.2 Restricted Use — Permitted Purpose Only

The Receiving Party may use Confidential Information solely for the Permitted Purpose. It may not utilise, employ, exploit, or in any other manner use Confidential Information for any purpose other than the Permitted Purpose — including but not limited to competing with the Disclosing Party, approaching the Disclosing Party's commercial partners, or developing competing products or services based on Confidential Information received.

3.3 Permitted Recipients — Need to Know

The Receiving Party may disclose Confidential Information to Permitted Recipients on a strictly need-to-know basis, provided that: (a) each Permitted Recipient is informed of the confidential nature of the information and the terms of this Agreement before disclosure; (b) the Receiving Party takes all practical steps to bind Permitted Recipients to confidentiality obligations at least equivalent to those in this Agreement; and (c) the Receiving Party remains responsible for any breach of confidentiality by any Permitted Recipient as if the breach were its own.

3.4 Standard of Care

The Receiving Party must protect Confidential Information with no less than the same standard of care it applies to its own most sensitive confidential and proprietary information, and in any event with no less than reasonable care. This includes appropriate technical and organisational security measures — including encryption, access controls, and secure storage — appropriate to the sensitivity of the Confidential Information.

Cannabis cultivar data, mother plant genetics, clone propagation protocols, Named Patient pipeline data, SAHPRA licence details, and reseller code structures are among Bassani Health's most commercially sensitive information categories. The Receiving Party acknowledges that unauthorised

disclosure of this information would cause irreparable harm to Bassani Health that cannot be adequately compensated by monetary damages alone.

3.5 Digital Information — Special Obligations

Where Confidential Information is disclosed in digital form — including by email, file sharing platform, cloud storage, USB, or any other electronic medium — the Receiving Party must: (a) store digital Confidential Information on password-protected, encrypted devices or platforms with restricted access; (b) not upload Confidential Information to any public cloud service, AI training platform, or shared server that does not meet the encryption and access control standards of this Agreement; and (c) implement a digital access log identifying all Permitted Recipients who have accessed digitally stored Confidential Information.

3.6 No Reverse Engineering

The Receiving Party may not use Confidential Information to reverse-engineer, replicate, or develop any pharmaceutical formulation, cannabis cultivar, clone propagation protocol, cannabinoid extraction process, or manufacturing method that is the subject of the Confidential Information. This prohibition survives termination of this Agreement indefinitely.

SECTION 4: NON-CIRCUMVENTION

4.1 Core Non-Circumvention Obligation

The Receiving Party acknowledges that in connection with the Permitted Purpose, Bassani Health may disclose or the Receiving Party may become aware of Bassani Health's commercial partners, patients, resellers, territory agents, pharmacies, cultivar suppliers, export relationships, and investor relationships. The Receiving Party unconditionally undertakes that it will not, directly or indirectly, whether alone or with any other person:

- Approach, solicit, negotiate with, or enter into any transaction with any Named Patient, Collection Point Store, Registered Pharmacy, Store Reseller, Pharmacy Reseller, Territory Agent, or other commercial partner of Bassani Health whose identity was disclosed under or became known through this Agreement, without Bassani Health's prior written consent;
- Approach, solicit, or acquire cannabis clones, mother plants, raw material, or cultivar genetics from any cultivator whose identity was disclosed to the Receiving Party as a Bassani Health supplier, without Bassani Health's prior written consent;
- Approach, solicit, or enter into any investment, funding, or commercial arrangement with any investor, financier, or funding source whose identity was disclosed to the Receiving Party in connection with the Permitted Purpose, without Bassani Health's prior written consent;
- Circumvent, bypass, or compete with Bassani Health in connection with any opportunity, relationship, or transaction first identified to the Receiving Party through Bassani Health's Confidential Information; or
- Use Bassani Health's Confidential Information to solicit, recruit, or engage any employee, contractor, advisor, or Responsible Person of Bassani Health.

4.2 Duration of Non-Circumvention Obligation

The non-circumvention obligations in Section 4.1 are operative for the full three (3) year term of this Agreement and for a further period of two (2) years after expiry or termination — giving a total non-circumvention protection period of five (5) years from the Effective Date.

The non-circumvention obligation applies to relationships and opportunities that Bassani Health disclosed in confidence. The Receiving Party bears the onus of proving that any relationship or opportunity it pursues independently of this Agreement was known to it before the Effective Date or was not derived from Bassani Health's Confidential Information.

SECTION 5: POPIA COMPLIANCE & PATIENT DATA PROTECTION

5.1 POPIA Application

Both parties acknowledge that Personal Information and Special Personal Information may be disclosed under this Agreement, particularly where the Permitted Purpose involves the Domestic Section 21 Channel, Named Patient pipeline data, Clinify portal data, pharmacy patient dispensing data, or any other information directly or indirectly connected to identifiable individuals.

5.2 Special Personal Information — Named Patient Data

Named Patient data — including Section 21 Authorisation details, patient identity, diagnosis or condition information, and dispensing records — is Special Personal Information under Section 26 of POPIA. The Receiving Party may only process Special Personal Information where: (a) it is strictly necessary for the Permitted Purpose; (b) it is processed in accordance with the data subject's prior consent or another lawful processing ground under POPIA; and (c) it is protected by technical and organisational measures equivalent to those applied by Bassani Health. The Receiving Party may not disclose Special Personal Information to any third party under any circumstances.

5.3 Data Operator Obligations

Where the Receiving Party processes Personal Information on behalf of Bassani Health as part of the Permitted Purpose, it acts as an Operator under POPIA. The Receiving Party must: (a) process Personal Information only on Bassani Health's documented instruction; (b) implement appropriate security safeguards; (c) not engage any sub-operator without Bassani Health's prior written consent; (d) notify Bassani Health within forty-eight (48) hours of becoming aware of any actual or suspected data breach; and (e) on instruction, securely return or destroy all Personal Information.

5.4 POPIA Breach — Consequences

A POPIA breach by the Receiving Party is a material breach of this Agreement and entitles Bassani Health to: seek immediate interdict without notice; require the Receiving Party to notify the Information Regulator; and claim all damages, administrative penalties, and legal costs arising

from the breach. POPIA breaches involving Special Personal Information (patient data) are treated with the highest severity.

SECTION 6: TITLE & INTELLECTUAL PROPERTY

All Confidential Information disclosed by the Disclosing Party remains the exclusive property of the Disclosing Party. Nothing in this Agreement transfers, licences, or grants any right, title, or interest in any Confidential Information to the Receiving Party. The Receiving Party acquires no intellectual property rights — express, implied, or otherwise — in any formulation, cultivar, process, patent, trade secret, or other intellectual property of the Disclosing Party by virtue of this Agreement or any disclosure made under it.

Cannabis mother plant genetics and clone propagation protocols are proprietary cultivar intellectual property of Bassani Health. The Receiving Party may not characterise, sequence, catalogue, or use mother plant or clone data to develop competing cultivars or propagation programmes, during or after the term of this Agreement.

SECTION 7: EXCLUDED INFORMATION

The obligations of this Agreement do not apply to information that the Receiving Party can demonstrate, by clear and convincing evidence:

1. was in the Receiving Party's possession free of any obligation of confidence before the Effective Date of this Agreement;
1. is or becomes publicly available other than through a breach by the Receiving Party of this Agreement or any other confidentiality obligation;
2. is independently developed by the Receiving Party without reference to or use of any Confidential Information;
2. is received by the Receiving Party from a third party who is lawfully entitled to disclose it free of any confidentiality obligation to the Disclosing Party; or
3. is required to be disclosed by law, court order, or regulatory compulsion — subject to the procedure in Section 8.

The onus of proving that information falls within any exclusion rests entirely on the Receiving Party. Information disclosed under this Agreement is not excluded merely because it relates to or touches on matters about which the Receiving Party had prior general knowledge. Only specific identical information that pre-existed this Agreement satisfies the exclusion.

SECTION 8: REGULATORY & COMPELLED DISCLOSURE

8.1 SAHPRA, SAPS & Regulatory Bodies

Each party acknowledges that Bassani Health operates in a regulated pharmaceutical environment. Bassani Health may, at its sole discretion, disclose Confidential Information to SAHPRA, SAPS, NDoH, SAPC, SARS, or any other regulatory or law enforcement authority as

required by law or in connection with Bassani Health's compliance obligations. Such disclosure by Bassani Health does not constitute a breach of this Agreement.

8.2 Court Order or Legal Compulsion

If the Receiving Party is required by a court of competent jurisdiction, regulatory authority, or applicable law to disclose any Confidential Information, the Receiving Party must: (a) notify Bassani Health in writing as promptly as legally permissible, and in any event before the disclosure; (b) cooperate fully with Bassani Health's attempts to obtain a protective order or other appropriate relief; (c) disclose only that portion of the Confidential Information that it is legally compelled to disclose; and (d) use all reasonable efforts to ensure that any disclosed Confidential Information is treated confidentially by the recipient. Compliance with this Section is not a breach of this Agreement.

SECTION 9: RETURN & DESTRUCTION OF INFORMATION

9.1 Return on Request

The Disclosing Party may, at any time and for any reason, request the Receiving Party to return all material containing, pertaining to, or derived from the Confidential Information. The Receiving Party must comply within five (5) business days of such request.

9.2 Destruction in Lieu of Return

At the Disclosing Party's election, the Receiving Party must destroy all Confidential Information instead of returning it, and must furnish a written statement signed by a director or officer confirming that all such material has been destroyed, identifying the means of destruction used.

9.3 Electronic Records Carve-Out

The obligation to destroy Confidential Information does not require the Receiving Party to destroy Confidential Information stored in automated electronic backup or archiving systems that are not readily accessible and that are not specifically targeted at storing Confidential Information. Any Confidential Information that remains in such backup or archive systems after the applicable return or destruction period remains subject to all confidentiality obligations in this Agreement for as long as it is retained.

9.4 Regulatory Retention Obligation

The Receiving Party is not required to destroy Confidential Information that it is legally required to retain under applicable law or to satisfy the requirements of a regulatory body to which it is subject. All such retained Confidential Information remains subject to the full confidentiality obligations of this Agreement.

SECTION 10: BREACH & REMEDIES

10.1 Agreement Cannot Be Cancelled for Breach

This Agreement may not be cancelled by either party on the basis of a breach by the other party. Breach does not release either party from its obligations under this Agreement.

10.2 Remedies Available

An aggrieved party's remedies for breach of this Agreement are:

- Interdict (urgent or otherwise) to restrain actual or threatened breach — no notice to the defaulting party is required before instituting interdict proceedings;
- Specific performance — compelling the Receiving Party to comply with its return, destruction, or other obligations;
- Damages — including direct, indirect, consequential, and economic losses arising from the breach, on an attorney-and-own-client scale;
- Claims under POPIA — including all administrative penalties and Information Regulator costs arising from a data breach; and
- Any other remedy available under South African law.

Unauthorised disclosure of Bassani Health's Confidential Information — particularly Named Patient data, cannabis cultivar genetics, clone propagation protocols, SAHPRA licence conditions, reseller network details, or pharmaceutical formularies — may cause irreparable harm that cannot be adequately remedied by damages alone. The Receiving Party consents to Bassani Health seeking urgent interdict relief in any court of competent jurisdiction without prior notice.

SECTION 11: REPRESENTATIONS & WARRANTIES

Each party represents and warrants that:

4. It has the full authority, corporate capacity, and all necessary approvals to enter into this Agreement and to perform all obligations under it;
3. Its authorised signatory has the legal capacity and specific authority (including applicable board resolution) to execute this Agreement on its behalf;
5. Execution of this Agreement does not conflict with or breach any other agreement to which it is a party;
4. Its disclosure of Confidential Information to the other party will not, to the best of its knowledge, infringe any third party's intellectual property rights; and
6. It has not been subject to any insolvency proceedings, deregistration, or enforcement action that would affect its ability to perform its obligations.

Each Disclosing Party additionally warrants that it has the authority to disclose the Confidential Information under this Agreement and that the disclosure will not breach any regulatory, SAHPRA, or POPIA obligation binding on it.

SECTION 12: DURATION & SURVIVAL

12.1 Term

This Agreement commences on the Effective Date and the confidentiality and non-disclosure obligations continue for three (3) years from the Effective Date, regardless of whether any

commercial relationship between the parties is established, commenced, or terminated during that period.

12.2 Survival

The following obligations survive expiry or termination of this Agreement indefinitely or for the period specified:

- Non-circumvention obligations — for five (5) years from the Effective Date as provided in Section 4.2;
- Reverse engineering prohibition — indefinitely;
- Confidentiality of Special Personal Information (Named Patient data) — indefinitely;
- IP ownership acknowledgements — indefinitely;
- Indemnity obligations arising from breach — indefinitely; and
- POPIA compliance obligations for retained Personal Information — for as long as any Personal Information is retained.

Three years is a considered balance — long enough to protect Bassani Health's commercial strategy, patient pipeline, cultivar IP, and investor relationships across a full business cycle; commercially acceptable to counterparties operating in good faith. The extended non-circumvention period of five years reflects the additional severity of circumvention harm.

SECTION 13: DISPUTE RESOLUTION

The parties agree to the following tiered dispute resolution process:

TIER	MECHANISM	PERIOD	PROCESS
1	Good-Faith Negotiation	<i>15 calendar days</i>	Either party may notify the other of a dispute by written notice. Senior representatives of both parties must meet (in person or by video call) within 5 business days to attempt resolution in good faith.
2	Mediation	<i>30 calendar days from mediation appointment</i>	If unresolved after Tier 1, either party may refer the dispute to mediation. The mediator is agreed by the parties within 5 business days or appointed by the Arbitration Foundation of South Africa (AFSA). Mediation costs are shared equally.
3	Binding Arbitration	<i>Governed by AFSA Rules</i>	If unresolved after mediation, either party may refer the dispute to binding arbitration under the AFSA Expedited Rules, seated in Johannesburg, Gauteng, conducted in English. The arbitrator's decision is final and binding. Costs follow the award.

Nothing in this Section prevents either party from seeking urgent interdict relief from any court of competent jurisdiction without prior notice, where immediate relief is necessary to prevent irreparable harm. The right to seek urgent relief is expressly preserved and operates concurrently with the dispute resolution tiers above.

SECTION 14: GENERAL PROVISIONS

14.1 Governing Law

This Agreement is governed by and construed in accordance with the laws of the Republic of South Africa. To the extent that any Permitted Purpose involves activities in other jurisdictions, each party additionally complies with the applicable laws of those jurisdictions — particularly pharmaceutical import/export regulations, data protection laws, and cannabis regulatory frameworks applicable to international operations.

14.2 Notices

All formal notices under this Agreement must be in writing and delivered: (a) by hand to the relevant party's registered address during business hours on a business day (effective on date of delivery); (b) by email with confirmed read receipt to the email address on the cover page (effective on confirmation of receipt); or (c) by nationally recognised overnight courier (effective on signature of delivery confirmation). The parties may correspond by WhatsApp or other messaging platforms for operational purposes only — no formal notice, amendment, or variation may be given by WhatsApp or unconfirmed messaging platform.

14.3 Amendments

No amendment or modification of this Agreement is effective unless in writing and signed by duly authorised representatives of both parties. No verbal amendment, course of conduct, or failure to enforce any provision creates an implied amendment.

14.4 Waiver

No failure or delay by either party in exercising any right under this Agreement operates as a waiver of that right. No single or partial exercise of any right precludes any further exercise of that right. No waiver of any breach operates as a waiver of any subsequent or continuing breach.

14.5 Entire Agreement

This Agreement constitutes the entire agreement between the parties with respect to confidentiality and non-disclosure in connection with the Permitted Purpose and supersedes all prior agreements, arrangements, and understandings (whether written or oral) on the same subject matter.

14.6 Severability

If any provision of this Agreement is held invalid, illegal, or unenforceable, that provision is severed from the Agreement to the minimum extent necessary, and the remaining provisions continue in full force. The parties agree to replace any severed provision with a valid provision that achieves, to the greatest extent possible, the same commercial effect as the severed provision.

14.7 Counterparts & Electronic Execution

This Agreement may be executed in counterparts, each of which is an original and all of which together constitute one agreement. Execution by electronic signature (including DocuSign, Dropbox Sign, or equivalent platform) is valid and enforceable. Electronic execution creates the same binding obligations as handwritten signature. The digital audit trail generated by the electronic signature platform constitutes the definitive record of execution.

14.8 Publicity & Announcements

Neither party may make any public announcement, press release, statement, or regulatory disclosure concerning this Agreement, the Permitted Purpose, or the relationship between the parties without the prior written consent of the other party.

14.9 Costs

Each party bears its own legal and professional costs of negotiating, preparing, and executing this Agreement. Any legal or professional costs incurred by the aggrieved party arising from the defaulting party's breach are recoverable from the defaulting party on an attorney-and-own-client scale.

14.10 Domicilium

Each party chooses its address as set out on the cover page of this Agreement as its domicilium citandi et executandi for all purposes under this Agreement. Either party may change its domicilium on fourteen (14) days' written notice to the other.

SECTION 15: BASSANI HEALTH PRODUCT SUITE —
REFERENCE SCHEDULE

This Schedule sets out the full Bassani Health Product Suite for reference in determining what information falls within the Confidential Information definition in Section 1. It is illustrative of the scope of Bassani Health's commercial operations — it is not exhaustive and does not limit the Confidential Information definition.

Channel	Product / Output	Regulatory Authority	Applicable Licence
Domestic — Section 21 Named Patient	Pharmaceutical-grade dried cannabis flower	SAHPRA Section 21 Authorisation + Script per Named Patient	Packer Licence No. 0000001473.-2 + Manufacturing Pharmacy Licence GP00455M
Domestic — Section 21 Named Patient	Cannabis pre-roll products	SAHPRA Section 21 Authorisation + Script per Named Patient	Packer Licence + Manufacturing Pharmacy Licence
Domestic — Section 21 Named Patient	Cannabis-infused gummies	SAHPRA Section 21 Authorisation + Script per Named Patient	Packer Licence + Manufacturing Pharmacy Licence
Domestic — Section 21 Named Patient	Cannabis vape products	SAHPRA Section 21 Authorisation + Script per Named Patient	Packer Licence + Manufacturing Pharmacy Licence

Export — International Pharmaceutical	Full pharmaceutical product suite (flower, pre-rolls, gummies, vapes, distillate)	Destination country's pharmaceutical import authority; SAHPRA export notification	Packer Licence (export expressly authorised in Annexure)
Export — International	Cannabis distillate (≥80% total cannabinoids)	Destination country pharmaceutical authority	Packer Licence
Export / Domestic B2B — Licensed Cultivators	Cannabis clones (rooted cuttings from mother plants)	SAHPRA Section 22C-to-22C licence-to-licence supply; or export authority	Cultivation Licence No. 0000000078MC-v3
Export / Domestic B2B — Licensed Cultivators	Cannabis mother plants	SAHPRA Section 22C-to-22C; or export	Cultivation Licence No. 0000000078MC-v3

This Reference Schedule reflects Bassani Health's licensed product suite as at April 2026. Bassani Health's product range may expand as additional SAHPRA approvals are obtained. Any product or output produced under the Bassani Manufacturing Licences and disclosed in connection with the Permitted Purpose is Confidential Information regardless of whether it appears in this Schedule.

SECTION 16: SIGNATURE & EXECUTION

By signing below, each party confirms that: (i) it has read and understood this Agreement in its entirety; (ii) it has had the opportunity to obtain independent legal advice before signing; (iii) its authorised signatory has full authority to bind it to this Agreement; and (iv) it agrees to be bound by all terms from the Effective Date.
