

BASSANI HEALTH (PTY) LTD

Registration No: 2024/710124/07 | VAT No: 4430323131

SECTION 21 COLLECTION POINT STORE ONBOARDING & PARTNERSHIP AGREEMENT

*Incorporating Regulatory Compliance Framework, Pharmaceutical Dispensing Model, Store
Obligations,
Commercial Terms, Patient Protections, Indemnity & Legal Requirements*

Version 1.2 | April 2026 | STRICTLY CONFIDENTIAL

Corner of Marcius & Dychthley Road, Barbeque Downs, Kyalami, Midrand, Gauteng, 1684
info@bassanihealth.com

IMPORTANT NOTICE & CONFIDENTIALITY

This document is strictly confidential and is intended solely for the named Store and its authorised representatives. It may not be reproduced, distributed, or disclosed to any third party without the prior written consent of Bassani Health (Pty) Ltd. Nothing in this document constitutes legal advice. Stores are encouraged to seek independent legal counsel before executing this Agreement.

This Onboarding Agreement ("Agreement") sets out the terms, conditions, compliance obligations, and regulatory framework governing the relationship between Bassani Health (Pty) Ltd ("Bassani Health") and the Store named in Section 14 of this Agreement.

By signing this Agreement, the Store confirms that it has read, understood, and accepted all terms contained herein, and commits to operating exclusively within the pharmaceutical regulatory framework described.

SECTION 1: DEFINITIONS & INTERPRETATION

In this Agreement, unless the context indicates otherwise, the following terms shall have the meanings set out below:

TERM	DEFINITION
"Act"	The Medicines and Related Substances Act, No. 101 of 1965, as amended.
"Agreement"	This Store Onboarding & Partnership Agreement, including all schedules and appendices.
"Bassani Health"	Bassani Health (Pty) Ltd, Registration No. 2024/710124/07, VAT No. 4430323131, a duly incorporated pharmaceutical entity licensed by SAHPRA, the National Department of Health, and the South African Pharmacy Council to manufacture and distribute pharmaceutical cannabis-based medicines.
"Cannabis-Based Medicine"	A pharmaceutical-grade, finished-dose medicine containing cannabinoid compounds, manufactured by Bassani Health under its SAHPRA Licence to Manufacture Medicines and dispensed exclusively under valid Scripts and SAHPRA Section 21 Authorisations. Also referred to in this Agreement as a 'Pharmaceutical Medicine' where the pharmaceutical context is emphasised. For the avoidance of doubt, such medicines are classified as Schedule 6 medicines under the Act and as controlled substances under the Drugs Act.
"Clinify Portal"	The digital patient and prescriber management platform operated exclusively in partnership with Clinify (Pty) Ltd, Registration No. 2022/551694/07, through which patients access medical consultations, SAHPRA Section 21 applications, and prescription management as part of the Bassani Health pharmaceutical ecosystem.
"Collection Point"	The Store's fixed, approved business premises from which dispensed Pharmaceutical Medicines are released to Patients following mandatory identity verification.
"COD"	Cash on Delivery — the payment model under which the Store settles invoices from Bassani Health prior to or at the time of order collection.
"Delivery Note"	The SAHPRA-compliant dispensing record generated per order by Bassani Health, linking each unit of Pharmaceutical Medicine to a named Patient and their valid Section 21 Authorisation. The Delivery Note is Bassani Health's primary legal dispensing record, retained for five (5) years.
"Dispensing"	The lawful supply of a Pharmaceutical Medicine by Bassani Health, acting under its pharmaceutical licences, to a named Patient against a valid Script and Section 21 Authorisation.
"Drugs Act"	The Drugs and Drug Trafficking Act, No. 140 of 1992, as amended.
"Effective Date"	The date on which this Agreement is signed by both parties.
"Fully Compliant Store"	A Store at which 100% of all cannabis-based medicines or cannabis-related products held, stored, displayed, or available for release at any time originates exclusively from Bassani Health (Pty) Ltd under valid Scripts and SAHPRA Section 21 Authorisations, and at which no cannabis product from any other source is present on the premises in any quantity at any time. Only a Fully Compliant Store may use the terms 'legal', 'compliant', 'SAHPRA-aligned', 'licensed', 'pharmaceutical', or any equivalent representation in any context.
"GMP"	Good Manufacturing Practice — the pharmaceutical manufacturing and quality standards required by SAHPRA and applicable international regulatory guidelines.

"Mark-Up"		The commercial premium applied by the Store to Bassani Health's invoice price when billing the Patient for facilitation and collection services. The Mark-Up is the Store's sole commercial decision and is not regulated, endorsed, or administered by Bassani Health.
"Named Patient"		The specific individual identified on both the Script and the Section 21 Authorisation in respect of a particular Pharmaceutical Medicine and quantity. Bassani Health's dispensing liability and the lawfulness of any particular stock holding at a Collection Point extends only to the Named Patient. No other person has any right, claim, or entitlement in respect of medicines dispensed to a Named Patient.
"Patient"		A natural person who holds a valid, unexpired Script issued by a Registered Medical Practitioner, accompanied by a valid Section 21 Authorisation issued by SAHPRA for the specific Pharmaceutical Medicine.
"Patient Counselling Acknowledgement"		The written acknowledgement signed by the Patient (or authorised representative) at the point of release of a Pharmaceutical Medicine, confirming that the medicine is for the exclusive personal use of the Named Patient, that redistribution to any third party is prohibited, and that the Patient assumes sole responsibility for safekeeping and appropriate use from the moment of collection.
"POPIA"		The Protection of Personal Information Act, No. 4 of 2013, as amended.
"Registered Medical Practitioner"		A medical doctor registered with the Health Professions Council of South Africa (HPCSA), duly entitled to prescribe medicines under Section 21 of the Act.
"Reseller Code"		The unique identifier assigned to the Store by Bassani Health upon completion of onboarding, used for order processing, invoice management, and commission recording within Bassani Health's ERP system.
"SAHPRA"		The South African Health Products Regulatory Authority, established under the Medicines and Related Substances Act, No. 101 of 1965.
"SAPC"		The South African Pharmacy Council, the statutory body regulating the practice of pharmacy in South Africa.
"Schedule Medicine"	6	A medicine classified as Schedule 6 under the Act, requiring a prescription from a Registered Medical Practitioner and dispensing only through authorised pharmaceutical channels. Pharmaceutical cannabis-based medicines containing THC are classified as Schedule 6 in South Africa.
"Script"		The written prescription issued by a Registered Medical Practitioner in respect of a specific Named Patient for a specific Pharmaceutical Medicine and quantity.
"Section Authorisation"	21	The written authorisation letter issued by SAHPRA to a Registered Medical Practitioner, granting permission to prescribe and supply an unregistered pharmaceutical medicine to a specifically Named Patient for a specified product and quantity. Valid for six (6) months from the date of issue unless otherwise specified. The Section 21 Authorisation, together with the corresponding Script, is the only documentation that verifies the lawfulness of a specific quantity of Pharmaceutical Medicine held at a Collection Point in respect of a specific Named Patient.
"Store"		The legally registered South African business entity identified in Section 14 of this Agreement, operating from a fixed, identifiable premises, that has successfully completed the Bassani Health Compliance Assessment and been approved as a Section 21 Collection Point partner.
"Store Representative"		Any owner, director, manager, employee, contractor, or agent of the Store.
"Valid Script"		A Script that is current, unexpired, issued by a Registered Medical Practitioner, and accompanied by a current, unexpired SAHPRA Section 21 Authorisation in respect of the same Named Patient and the same Pharmaceutical Medicine.

Where the context requires, words importing the singular shall include the plural and vice versa. References to 'pharmaceutical cannabis-based medicines', 'Pharmaceutical Medicines', 'Cannabis-Based Medicines', and 'cannabis-based medicines' are used interchangeably throughout this Agreement to refer to the medicines defined above. Statutory terms — including 'cannabis', 'dagga', and 'dangerous dependence-producing substance' — appear in their legally prescribed form only where directly citing legislation. Headings are for reference only and do not affect interpretation.

SECTION 2: REGULATORY & LEGAL FRAMEWORK

The Bassani Health Section 21 Collection Point model operates within a carefully defined multi-statute pharmaceutical and narcotics regulatory framework. All parties must understand, acknowledge, and operate in full compliance with the following legislation at all times.

2.1 The Medicines and Related Substances Act, No. 101 of 1965 ("the Act")

This is the primary legislative instrument governing the manufacture, supply, dispensing, and distribution of pharmaceutical medicines in South Africa, administered by SAHPRA. Key provisions applicable to this Agreement include:

- Section 21: Permits a Registered Medical Practitioner to apply to SAHPRA for authorisation to prescribe and supply an unregistered pharmaceutical medicine — including pharmaceutical cannabis-based medicines — to a specifically Named Patient. Each authorisation is patient-specific, medicine-specific, and valid for six (6) months.
- Section 22A: Governs the classification of medicines into schedules. Pharmaceutical cannabis-based medicines containing THC are classified as Schedule 6, requiring a prescription and dispensing only through authorised pharmaceutical channels.
- Section 22C: Governs the licensing of pharmaceutical manufacturers, packers, distributors, and wholesalers. Bassani Health's Manufacturing and Packer Licence (issued under Section 22C(1)(b)) is the direct legal authority enabling the Collection Point distribution model.

Schedule 6 status places pharmaceutical cannabis-based medicines containing THC among the most tightly regulated substances in South Africa. Distribution through any channel not specifically authorised under the Act and Bassani Health's Packer Licence is a criminal offence.

2.2 The Drugs and Drug Trafficking Act, No. 140 of 1992 ("Drugs Act")

The Drugs Act operates alongside the Medicines Act and creates serious criminal liability for unauthorised handling of substances in its schedules. Cannabis (dagga) remains listed in Part III of Schedule 2 as a dangerous dependence-producing substance, regardless of the Cannabis for Private Purposes Act, 2024.

- Section 1 defines "dealing in drugs" to include possession, delivery, supply, distribution, or any transaction involving a dangerous dependence-producing substance, irrespective of commercial gain.
- Section 4: Primary dealing offence — imprisonment up to 25 years without the option of a fine.
- Section 13: Offence of possession of a dangerous dependence-producing substance.

The Drugs Act applies independently of the Medicines Act. Participation in the Bassani Health pharmaceutical framework does not provide any protection in respect of cannabis product sourced from any supplier other than Bassani Health. This is addressed in full in Section 11.

2.3 The Cannabis for Private Purposes Act, No. 24 of 2024

This Act decriminalises private adult use, possession, and cultivation of cannabis in private spaces. It creates no lawful commercial supply pathway and does not authorise any person to supply, sell, or distribute cannabis products outside of the SAHPRA pharmaceutical framework.

2.4 The Protection of Personal Information Act, No. 4 of 2013 ("POPIA")

Patient medical information and prescription data collected in the course of facilitating Section 21 pharmaceutical dispensing constitutes special personal information under POPIA. The Store must process, store, and protect all patient data in full compliance with POPIA. Minimum retention period: five (5) years.

SECTION 3: THE BASSANI HEALTH PHARMACEUTICAL DISPENSING MODEL

FUNDAMENTAL LEGAL PRINCIPLE: Bassani Health (Pty) Ltd does not sell pharmaceutical medicines to stores. Bassani Health dispenses pharmaceutical cannabis-based medicines exclusively to Named Patients holding valid Scripts and SAHPRA Section 21 Authorisations. The Store pays Bassani Health on behalf of the Named Patient and acts as an authorised Section 21 Collection Point. This is the legal and pharmaceutical foundation of the model.

3.1 The Pharmaceutical Section 21 Dispensing Process — Step by Step

The following describes the complete lawful pathway from patient consultation to pharmaceutical medicine collection:

1. A Registered Medical Practitioner consults with a Patient and determines that a pharmaceutical cannabis-based medicine is clinically indicated.
2. The Registered Medical Practitioner submits a Section 21 application to SAHPRA, facilitated through the Bassani Health / Clinify (Pty) Ltd pharmaceutical portal (Reg No: 2022/551694/07).
3. SAHPRA reviews the application and, where approved, issues a Section 21 Authorisation Letter naming the applicant doctor, the importing entity (Bassani Health), the Named Patient, the specific pharmaceutical medicine, and the approved quantity. Valid for six (6) months.
4. The Registered Medical Practitioner issues a formal Script to the Named Patient.
5. The Patient nominates the Store as their designated Collection Point and presents their Script and Section 21 Authorisation.
6. The Store places the order with Bassani Health using its assigned Reseller Code, paying on behalf of the Named Patient under the COD terms in Section 9.
7. Bassani Health processes the order; each unit is assigned to the Named Patient on the Delivery Note in compliance with SAHPRA pharmaceutical dispensing requirements.
8. The Store is notified when the order is packed and ready for collection.
9. An authorised Store Representative collects the order from Bassani Health's Midrand facility during designated collection hours, following identity and order confirmation procedures.
10. The Named Patient presents valid South African identification at the Collection Point. The Store verifies identity, releases the pharmaceutical medicine, and obtains the Patient's signature on the Patient Counselling Acknowledgement form.
11. The Store invoices the Named Patient at Bassani Health's invoice price plus any Mark-Up applied by the Store at the Store's sole discretion.

3.2 The Script and Section 21 Authorisation — The Only Proof of Lawful Stock

The SAHPRA Section 21 Authorisation Letter and the Registered Medical Practitioner's Script are the only documents that verify the lawfulness of a specific quantity of pharmaceutical cannabis-based medicine at a Collection Point in respect of a specific Named Patient. Both must be valid and current:

- A valid Script issued by a Registered Medical Practitioner for the Named Patient; AND
- A valid SAHPRA Section 21 Authorisation Letter for the same Named Patient, the same pharmaceutical medicine, and the same Registered Medical Practitioner.

No other document — including any Bassani Health licence — verifies that a specific quantity of pharmaceutical medicine at a specific store is lawfully held. Bassani Health's licences confirm Bassani Health's pharmaceutical manufacturing and distribution authority only. They do not verify the legitimacy of individual medicine stock at individual stores. Only the Script and the Section 21 Authorisation do that.

3.3 What the Store Is and Is Not

THE STORE IS:	THE STORE IS NOT:
A Section 21 Collection Point — a physical location where Patients collect their dispensed pharmaceutical cannabis-based medicines against valid Scripts and SAHPRA Authorisations	A seller, retailer, distributor, or wholesaler of medicines or cannabis-related products of any kind
A facilitator of Patient access to the Clinify / Bassani Health pharmaceutical prescribing ecosystem	A dispenser or pharmacy — dispensing is performed exclusively by Bassani Health's Responsible Pharmacist under its pharmaceutical licences
A payer on behalf of the Named Patient — settling Bassani Health invoices and recovering costs plus Mark-Up from the Patient	A pharmaceutical stock holder — no inventory of Pharmaceutical Medicines may be held other than confirmed orders already assigned to named Patients on a Delivery Note
An identity verifier — confirming Patient identity against valid SA identification before releasing dispensed medicines	A clinical advisor or substitute prescriber — the Store may not advise Patients on dosage, product selection, or medical matters under any circumstances
A record keeper — maintaining collection registers, Scripts, Section 21 Authorisations, and Patient Counselling Acknowledgements as required under this Agreement	A sub-licensor or co-licencee — the Store derives no licence rights and may not grant any other person the right to act as a collection point

SECTION 4: BASSANI HEALTH CREDENTIALS & PHARMACEUTICAL LICENCE STACK

Bassani Health (Pty) Ltd holds a complete and unique combination of regulatory licences constituting the only fully authorised, vertically integrated pharmaceutical cannabis platform in South Africa. A review of publicly available SAHPRA, National Department of Health, and South African Pharmacy Council records conducted in March 2026 found no other South African pharmaceutical cannabis operator publicly verified as holding this complete combination simultaneously.

All four licences must be simultaneously active for lawful pharmaceutical-grade cannabis-based medicine supply under this Agreement. Bassani Health confirms all licences are active and in good standing as at the Effective Date.

#	Licence / Certification	Issuing Authority	Licence Number	Expiry
1	SAHPRA Section 22C — Cultivation Licence Licence to Cultivate Cannabis for Purposes of Producing Scheduled Substances for Pharmaceutical Manufacture	SAHPRA	0000000078MC – v3	19 Jul 2027
2	SAHPRA Section 22C(1)(b) — Licence to Manufacture Medicines: Packer Authorises: packaging, re-labelling, cartoning, fine distribution to retail pharmacies and others, and pharmaceutical export. Primary enabling licence for the Collection Point model.	SAHPRA	0000001473.-.2	18 Nov 2029
3	Department of Health — Manufacturing Pharmacy Licence	NDoH	GP00455M	19 Jul 2027
4	South African Pharmacy Council — A-Grade Pharmacy Owner Certification (Y-Number)	SAPC	Y61015	31 Dec 2026

Licence 2 — the SAHPRA Licence to Manufacture Medicines (Packer), No. 0000001473.-.2 — is the most commercially and legally significant credential in this Agreement. Its Annexure explicitly authorises 'fine distribution to retail pharmacies and others', which is the direct legal authority enabling the Collection Point model. Stores operate within the pharmaceutical distribution scope of this licence — not as independent licence holders.

4.1 Responsible Pharmaceutical Personnel

Role	Name	Qualification
Responsible Pharmacist (all licences)	Rukshana Hussain	Bachelor of Pharmacy (B. Pharm); former Responsible Pharmacist, Medi-Rite Pharmacy Lenasia
Head of Quality Assurance & Regulatory Affairs	Henk Krebs	Qualified Pharmacist; additional legal training; Founder & MD, Akili Healthcare
Chief Executive Officer / Responsible Person to SAHPRA	Michael Stringer	MBA (Cumbria); Executive Leadership Programme (UCT); Harvard Business School Leadership Development

Bassani Health's licences are retained exclusively by Bassani Health and are not provided to Stores. Stores requiring confirmation of Bassani Health's pharmaceutical licence standing may verify directly with the issuing authorities (SAHPRA, NDoH, SAPC). Stores may not reproduce, display, present, or use Bassani Health's licences for any purpose — see Section 11.3.

SECTION 5: STORE ELIGIBILITY & PRE-QUALIFICATION

Acceptance as a Section 21 Collection Point for pharmaceutical cannabis-based medicines is subject to successful completion of the Bassani Health Compliance Assessment and confirmation that all eligibility criteria below are met and maintained throughout the term of this Agreement.

5.1 Mandatory Business Requirements

- The Store must be a legally registered business entity in South Africa, in good standing with CIPC.
- The Store must be registered with SARS for Income Tax and, where applicable, for VAT.
- The Store must operate from a fixed, identifiable, and permanently occupied business premises.
- The Store must have been in lawful commercial operation for a minimum of six (6) months prior to application, unless otherwise approved in writing by Bassani Health.
- The Store must not be subject to any current regulatory investigation, prosecution, or enforcement action by SAHPRA, SAPS, SARS, or any other authority.
- All directors, owners, or controlling persons of the Store must be fit and proper persons with no disqualifying criminal record relevant to medicines or controlled substances.

5.2 No Pharmaceutical Licence Required or Granted

The Store is not required to hold, and will not be granted, any SAHPRA licence, SAPC certification, DoH pharmaceutical manufacturing licence, or any other pharmaceutical licence as a result of this Agreement. The Store's lawful status as a Collection Point for pharmaceutical cannabis-based medicines derives exclusively from Bassani Health's Packer Licence (No. 0000001473.-.2) and its explicit authorisation for fine distribution. The Store is an approved collection point within that pharmaceutical distribution authority — not an independent licence holder.

Any conduct by the Store outside the scope of this Agreement falls entirely outside Bassani Health's pharmaceutical licence authority and exposes the Store to direct personal legal liability under both the Medicines Act and the Drugs Act.

5.3 Ongoing Eligibility

Eligibility is a continuing obligation throughout the term of this Agreement. Bassani Health reserves the right to conduct reassessments at any time and to immediately suspend or terminate this Agreement if the Store ceases to meet any eligibility criterion.

SECTION 6: STORE'S OBLIGATIONS AS A SECTION 21 COLLECTION POINT

The Store accepts the following as material obligations of this Agreement. Failure to comply constitutes a breach and may result in immediate suspension, termination, and/or reporting to the appropriate authorities.

6.1 Premises & Storage Obligations

- The Collection Point must be at the fixed, approved premises identified in Section 14. Pharmaceutical medicines may not be released from any other location.
- Pharmaceutical medicines awaiting Patient collection must be stored in a secure, locked, access-controlled environment inaccessible to the general public at all times.
- Storage must be appropriate for pharmaceutical products — protected from direct sunlight, excessive heat, humidity, and contamination.
- No pharmaceutical cannabis-based medicine may be displayed, exhibited, or made visible to the public in any form.
- Pharmaceutical medicines must be stored in their original, sealed, SAHPRA-compliant Bassani Health packaging. No repackaging, relabelling, splitting, or alteration is permitted.
- Pharmaceutical medicines may only be held for release to the specifically Named Patient on the Delivery Note. No general pharmaceutical stock-holding is permitted.

6.2 Patient Release Obligations

- No pharmaceutical medicine may be released to any person without valid South African identification (ID document, passport, or driver's licence). No exceptions.
- The Store must verify that the collector's identity matches the Named Patient on the order. If a different person collects, a written Patient authorisation letter must be presented and retained.
- The Store must confirm the order number before retrieving any pharmaceutical medicine from storage.
- Each release must be recorded in the collection register: date, time, order number, Named Patient name, collector identity, ID document details, and name of the Store Representative releasing the medicine.

6.3 Staff Training & Knowledge Obligations

- All Store Representatives handling pharmaceutical medicines must sign a staff acknowledgement form prior to doing so.
- The Store must ensure all relevant staff understand the Section 21 pharmaceutical framework and their obligations under this Agreement.
- No untrained or unauthorised Store Representative may handle, store, or release pharmaceutical medicines.

6.4 POPIA & Patient Data Obligations

- All patient medical and prescription data received in connection with this Agreement is special personal information under POPIA.
- Patient data may be used only for facilitating pharmaceutical medicine collection under this Agreement and may not be shared with any third party.
- Appropriate technical and organisational security measures must protect all patient data at all times.
- All patient records must be stored securely for a minimum of five (5) years.

6.5 Notification & Reporting Obligations

- The Store must immediately notify Bassani Health in writing of any regulatory inquiry, inspection, or enforcement action relating to the Collection Point.
- Any theft, loss, or unexplained disappearance of pharmaceutical medicines must be reported to Bassani Health and SAPS within twenty-four (24) hours.
- Any adverse patient reaction or pharmaceutical medicine complaint must be reported to Bassani Health within forty-eight (48) hours.

6.6 Patient Counselling Obligation at Point of Release

This obligation arises from a critical patient safety and liability principle: pharmaceutical cannabis-based medicines are dispensed for the exclusive therapeutic use of the Named Patient on the Script and Section 21 Authorisation. They are not general consumer goods and may not be shared, redistributed, or used by any other person under any circumstances.

At the moment of releasing any pharmaceutical cannabis-based medicine to a Named Patient (or their authorised representative), the Store must:

- Verbally advise the Patient that the pharmaceutical medicine is prescribed exclusively for that patient's specific medical condition and assessed dosage as determined by their Registered Medical Practitioner;
- Verbally advise the Patient that sharing, gifting, selling, lending, or transferring any portion of the dispensed pharmaceutical medicine to any other person — regardless of that person's medical condition — is strictly prohibited, constitutes an offence under the Drugs Act, and may expose both the Patient and the recipient to criminal liability;
- Verbally advise the Patient that they assume sole responsibility for the safekeeping and appropriate use of the pharmaceutical medicine from the moment of collection from the Store;
- Verbally advise the Patient that neither Bassani Health nor the Store bears any medical, pharmaceutical, or legal liability for any adverse event, medical reaction, harm, or consequence affecting any person other than the Named Patient on the Script and Section 21 Authorisation; and
- Obtain the Named Patient's (or authorised representative's) signature on the Patient Counselling Acknowledgement form at the point of release. A signed Patient Counselling Acknowledgement must be retained by the Store for a minimum of five (5) years per patient per dispensing event and is a mandatory compliance record under this Agreement.

The Patient Counselling Acknowledgement is not optional and may not be waived for any reason including urgency, patient familiarity, or repeat visits. A store that releases pharmaceutical medicines without obtaining this acknowledgement is in breach of this Agreement and assumes full liability for any consequences arising from that release.

SECTION 7: PATIENT ONBOARDING & SCRIPT MANAGEMENT

The patient relationship — clinical, medical, legal, and regulatory — belongs exclusively to the Patient and their Registered Medical Practitioner. The Store's role is facilitation of access to the pharmaceutical system and release of dispensed medicines. The Store is not a clinical participant under any circumstances.

7.1 The Bassani Health / Clinify Pharmaceutical Portal

Bassani Health facilitates patient prescribing and Section 21 pharmaceutical application management through its exclusive digital partnership with Clinify (Pty) Ltd (Registration No: 2022/551694/07). This platform enables:

- Online medical consultations between Patients and Registered Medical Practitioners;
- Digital submission and tracking of SAHPRA Section 21 pharmaceutical applications;
- Management of Section 21 Authorisation Letters including expiry notifications;
- Pharmaceutical script management, renewal reminders, and patient profile administration.

The Store may facilitate Patient access to the Clinify pharmaceutical portal by directing Patients to the platform for initial consultation. The Store may not conduct consultations, prescribe medicines, advise on clinical or dosage matters, or make clinical representations of any kind.

7.2 Script & Authorisation Validity Rules

- Every pharmaceutical medicine order requires a valid Script AND a valid SAHPRA Section 21 Authorisation Letter for the same Named Patient and same medicine.
- Section 21 Authorisation Letters are valid for six (6) months from issue unless otherwise specified.
- Bassani Health's order system automatically validates expiry. Orders linked to expired authorisations will not be processed.
- The Store must proactively notify Patients approaching authorisation expiry and facilitate renewal through the Clinify portal.

7.3 Patient Onboarding Steps

1. Patient contacts the Store or accesses the Clinify pharmaceutical portal directly to initiate a medical consultation.
2. Patient completes a consultation with a Registered Medical Practitioner via the Clinify platform.
3. Registered Medical Practitioner submits a Section 21 application to SAHPRA.
4. SAHPRA reviews and, if approved, issues a Section 21 Authorisation Letter.
5. Registered Medical Practitioner issues a formal Script to the Named Patient.
6. Patient nominates the Store as their designated pharmaceutical Collection Point.
7. Store places the first order with Bassani Health using the Patient's script details and the Store's Reseller Code.

8. Named Patient is recorded in Bassani Health's pharmaceutical dispensing system and linked to their Section 21 Authorisation and Delivery Note records.

SECTION 8: ORDER PLACEMENT & PHARMACEUTICAL FULFILMENT

This section governs the Store's pharmaceutical order placement and collection obligations. Bassani Health's internal fulfilment procedure is governed by SOP-OPS-001 (Pharmaceutical Order Processing & Fulfilment, Version 1.0, April 2026).

8.1 Store Reseller Code

On completion of onboarding, Bassani Health assigns the Store a unique Reseller Code. This code must accompany every order, enabling accurate pharmaceutical order tracking, invoice generation, and commission recording in Bassani Health's ERP system.

8.2 Pre-Order Checklist

Before placing any pharmaceutical medicine order, the Store must confirm:

- The Named Patient's Script and Section 21 Authorisation are valid and unexpired;
- The specific pharmaceutical medicine name, SKU, and quantity match those on the Patient's Authorisation;
- The Store's account balance with Bassani Health is within approved limits; and
- Payment has been arranged in accordance with the COD terms in Section 9.

8.3 Order Confirmation & Pharmaceutical Fulfilment

On confirmation of a valid, payable order, Bassani Health will generate a Tax Invoice, Delivery Note, and Picking Slip; assign each unit of pharmaceutical medicine to the Named Patient on the Delivery Note; and notify the Store when the order is packed and ready for collection. No pharmaceutical medicine will be released until payment is confirmed and the order has passed Bassani Health's mandatory quality verification.

8.4 Collection from Bassani Health's Pharmaceutical Facility

Bassani Health operates a collection-only fulfilment model. All pharmaceutical medicine orders must be collected from:

Bassani Health (Pty) Ltd

Corner of Marcius & Dychthley Road, Barbeque Downs, Kyalami, Midrand, Gauteng, 1684

Collection Hours: Monday – Friday 08:00 – 17:00 | Saturday 08:00 – 13:00

The Store Representative collecting must present: (a) the order number; (b) valid South African identification; and (c) written Store authorisation if collecting on behalf of the Store entity.

Bassani Health does not offer courier or third-party delivery of pharmaceutical cannabis-based medicines. Arranging delivery of Schedule 6 medicines via an unauthorised third party is a criminal offence under both the Act and the Drugs Act.

8.5 Uncollected Orders

Orders uncollected after seven (7) days from notification will be flagged. Orders uncollected after fourteen (14) days may be cancelled with applicable restocking fees. The Store remains liable for all confirmed and packed pharmaceutical orders, whether collected or not.

SECTION 9: COMMERCIAL TERMS

9.1 Pricing

Bassani Health's pharmaceutical medicine pricing is communicated via the current product price list, updated periodically with advance notice to the Store. The applicable price list forms part of Appendix A.

9.2 The Store's Mark-Up

The Store may apply a Mark-Up to Bassani Health's invoice price when billing the Named Patient for collection facilitation services. The Mark-Up is entirely the Store's commercial decision. Bassani Health does not regulate, endorse, or bear responsibility for the Mark-Up. The Store must ensure transparency and compliance with the Consumer Protection Act, No. 68 of 2008.

9.3 Payment Terms — Cash on Delivery (COD)

- All pharmaceutical medicine orders are settled on a COD basis. Full payment must be received before or at the time of collection.
- Payment by EFT to Bassani Health's designated bank account, confirmed in the Store's onboarding documentation.
- No pharmaceutical medicine will be released until full payment is confirmed in Bassani Health's system.
- Bassani Health's banking details are confidential and may not be shared with third parties.

9.4 Invoicing & Tax

A SARS-compliant Tax Invoice will be generated per order, referencing the Store's Reseller Code and Delivery Note number. Bassani Health's VAT number is 4430323131. The Tax Invoice is the primary accounting and VAT document.

9.5 Cancellations & Credit Notes

Order Stage	Authorisation Required	Outcome
Before invoice confirmed	Store contact	Order deleted. No credit note. No stock impact.
After invoice, before packing	Store contact with written reason	Credit note raised. Stock restored. Patient record updated.
After packing or post-collection	Bassani Health Admin written approval required	Returns process initiated. Medicines must be returned, inspected, and confirmed intact before credit is considered.

SECTION 10: RECORD KEEPING, REPORTING & AUDITS

10.1 Mandatory Store Records — Five-Year Retention

The Store must maintain the following records for a minimum of five (5) years:

- A pharmaceutical medicine collection register: date, time, order number, Named Patient name, collector name and identity, ID document type and number, name of the Store Representative releasing the medicine.
- The Script and SAHPRA Section 21 Authorisation Letter for every Named Patient order processed.
- A signed Patient Counselling Acknowledgement for every Named Patient at every dispensing event.
- Written authorisation letters from patients for any third-party collections.
- All correspondence with Bassani Health relating to pharmaceutical orders, cancellations, complaints, and incidents.
- All incident reports relating to pharmaceutical medicine loss, theft, or adverse patient events.

10.2 Script and Authorisation — Primary Verification Documents

The Script and Section 21 Authorisation Letter are the only documents verifying the lawfulness of a specific quantity of pharmaceutical cannabis-based medicine at a Collection Point for a specific Named Patient. In any inspection by SAPS, SAHPRA, or any authority, the Store must produce, for every pharmaceutical medicine in its possession, the corresponding Script and Section 21 Authorisation Letter. Any pharmaceutical medicine for which these documents cannot be produced is presumed to be unlawfully held.

10.3 Volume Reconciliation — Prima Facie Audit Trigger

Bassani Health's pharmaceutical order records constitute an objective, auditable record of all medicines lawfully supplied to the Store. If the volume of cannabis-based medicines present at the Store's premises at any time exceeds the volume supplied by Bassani Health and not yet released to Named Patients — whether identified by Bassani Health, the Store's own collection register, or any authority — that discrepancy constitutes prima facie evidence of illicit sourcing and shall be treated as an immediate and material breach of this Agreement, triggering all consequences in Section 12 and the indemnity obligations in Section 13.

10.4 Bassani Health Right of Audit

Bassani Health reserves the right to audit the Store's compliance with this Agreement at any time, including unannounced site visits. The Store must provide full access to its pharmaceutical collection register, Script and Authorisation file, Patient Counselling Acknowledgements, and all related documentation upon request. Audit findings will be communicated in writing within five (5) business days.

10.5 Conduct During Regulatory Inspections

- Immediately notify Bassani Health by telephone and in writing of any inspection by SAHPRA, SAPS, NDoH, or any other authority.
- Co-operate fully with the inspecting authority.
- Not make representations on behalf of Bassani Health without prior written authorisation.
- Provide inspectors with access to the pharmaceutical collection register, Script and Authorisation file, Patient Counselling Acknowledgements, and any medicines in the Store's possession.

SECTION 11: PROHIBITED ACTIVITIES

This is one of the most important sections of this Agreement. Many of the prohibitions below are criminal offences under South African law. Every Store Representative must read and understand this section before handling any pharmaceutical cannabis-based medicine.

The Store and each of its Representatives are strictly prohibited from the following at any time:

11.1 Pharmaceutical Medicine, Distribution & Commercial Prohibitions

- Storing, displaying, offering for sale, or distributing any pharmaceutical cannabis-based medicine or Schedule 6 substance not sourced exclusively and directly from Bassani Health (Pty) Ltd under this Agreement.
- Dispensing, re-dispensing, splitting, repackaging, relabelling, or altering any pharmaceutical medicine supplied by Bassani Health.
- Supplying, distributing, transferring, or making available any pharmaceutical medicine to any person who does not hold a Valid Script.
- Operating as a pharmaceutical wholesaler, distributor, or sub-licensor — the Store may only release medicines directly to the Named Patient or their written authorised representative.
- Advertising, marketing, or promoting Bassani Health pharmaceutical medicines, the Bassani Health brand, or the Collection Point relationship without prior written approval from Bassani Health.
- Releasing any pharmaceutical medicine outside the Store's designated operating hours communicated to Bassani Health.
- Releasing any pharmaceutical medicine without completing the mandatory identity verification and Patient Counselling Acknowledgement procedures.

11.2 Clinical & Prescribing Prohibitions

- Advising, recommending, or prescribing any pharmaceutical cannabis-based medicine to any Patient or member of the public in any clinical or quasi-clinical capacity.
- Accepting or processing any pharmaceutical medicine order based on a Script not accompanied by a valid, current SAHPRA Section 21 Authorisation Letter.
- Facilitating patient access to prescriptions through any platform or practitioner outside the Bassani Health / Clinify pharmaceutical ecosystem.

11.3 Licence Reproduction & Misrepresentation Prohibitions

- Reproducing, displaying, presenting, sharing, or otherwise using any Bassani Health pharmaceutical licence, certification, or regulatory approval — in any form — for any purpose, including presentation to law enforcement, regulatory authorities, patients, landlords, or the public.
- Using any Bassani Health licence to imply that the Store itself holds pharmaceutical or SAHPRA approval of any kind.
- Using the terms 'legal', 'compliant', 'SAHPRA-approved', 'SAHPRA-aligned', 'licensed', 'pharmaceutical', 'fully legal', or equivalent terminology in any communication, marketing,

or signage unless the Store meets the definition of a Fully Compliant Store at that moment.

- Representing that the Store's association with Bassani Health makes the Store generally licensed, approved, or pharmaceutical-compliant. Bassani Health's pharmaceutical licences confirm Bassani Health's authority — not the Store's. Only the Script and Section 21 Authorisation confirm the lawfulness of individual medicine stock at individual stores.

11.4 Data & Information Prohibitions

- Sharing, selling, or disclosing any patient medical or prescription information to any third party in violation of POPIA.
- Using patient data for any purpose other than facilitating Named Patient collection under this Agreement.
- Making any misrepresentation to Bassani Health, SAHPRA, SAPS, or any authority regarding the Store's operations, Named Patients, or any pharmaceutical order.

11.5 CRITICAL — ILLICIT PRODUCT: BASSANI HEALTH ASSOCIATION PROVIDES NO LEGAL PROTECTION

CRITICAL LEGAL WARNING — ILLICIT PRODUCT SOURCING

Participation in the Bassani Health Section 21 Collection Point Programme — including payment for patient scripts, receipt of pharmaceutical-grade cannabis-based medicines, and registration as a Store under this Agreement — does not, in any way and under any circumstances, provide the Store, its owners, directors, managers, employees, or agents with any legal protection, immunity, or defence in respect of any cannabis product or cannabis-related substance that is sourced, held, stored, displayed, sold, distributed, or otherwise dealt in from any source other than Bassani Health (Pty) Ltd.

Cannabis (dagga) remains listed in Part III of Schedule 2 of the Drugs and Drug Trafficking Act, No. 140 of 1992 as a dangerous dependence-producing substance. Any person who stores, sells, distributes, or otherwise deals in cannabis product obtained from an unlicensed or non-SAHPRA-approved source commits the offence of 'dealing in drugs' as defined in section 1 of the Drugs Act and is liable, upon conviction, to imprisonment for a period of up to 25 years without the option of a fine, in terms of section 4 of that Act.

Bassani Health will not intervene in, provide legal support for, or mediate on behalf of any Store or Store Representative found to be in possession of or dealing in illicit cannabis product from any source other than Bassani Health. Where Bassani Health becomes aware of such conduct, it reserves the right — and in certain circumstances will be obligated — to report such conduct to SAHPRA, the South African Police Service (SAPS), the Hawks (Directorate for Priority Crime Investigation / DPCI), and/or SARS.

Pharmaceutical cannabis-based medicines supplied by Bassani Health derive their legal status exclusively from Bassani Health's SAHPRA Licence to Manufacture Medicines (No. 0000001473.-.2) and the patient-specific Section 21 authorisation framework. Only medicine originating from Bassani Health under a valid Section 21 order, assigned to a Named Patient on a Delivery Note, and verifiable by a matching Script and Section 21 Authorisation Letter at the Collection Point, is lawful. All other cannabis product remains controlled under the Drugs Act regardless of the Store's association with Bassani Health.

11.6 Prohibition on Facilitating Secondary Distribution of Pharmaceutical Medicines

Pharmaceutical cannabis-based medicines dispensed to a Named Patient are prescribed for that patient's specific medical condition and assessed dosage. Secondary distribution — the transfer, sharing, gifting, or sale of any portion of a dispensed pharmaceutical medicine by a Named Patient to any other person — is prohibited under the Act and the Drugs Act and represents a serious pharmaceutical safety and regulatory risk.

The Store is prohibited from:

- Placing any pharmaceutical medicine order which the Store knows, believes, or has reasonable grounds to suspect is intended, in whole or in part, for any person other than the Named Patient on the relevant Script and Section 21 Authorisation;
- Facilitating, enabling, encouraging, or turning a blind eye to any arrangement under which a Named Patient intends to redistribute, share, gift, sell, or transfer any portion of their dispensed pharmaceutical medicine to any other person;
- Releasing any pharmaceutical medicine in a quantity, frequency, or manner that is inconsistent with the Named Patient's documented medical need and prescription history.

If the Store becomes aware — or has reasonable grounds to suspect — that a Named Patient has redistributed, transferred, or shared any dispensed pharmaceutical medicine with any other person, the Store must immediately notify Bassani Health in writing. A Store that places a pharmaceutical medicine order it knows or suspects is intended for redistribution to an unscripted third party is participating in the unlawful distribution of a Schedule 6 medicine and dealing in a controlled substance under the Drugs Act.

The incident that gives rise to this clause is instructive: a Named Patient received a full pharmaceutical medicine order but did not use the entire dispensed quantity. The unused portion was subsequently administered to a third party with a different medical condition, without a Script or Section 21 Authorisation. This constitutes unlawful administration of a Schedule 6 pharmaceutical medicine and dealing in a controlled substance. Neither Bassani Health nor the Store bears any liability for the medical consequences to that third party — but the Store that facilitated or failed to counsel against such redistribution may face its own regulatory and legal exposure.

SECTION 12: CONSEQUENCES OF NON-COMPLIANCE & REPORTING AUTHORITIES

12.1 Contractual Consequences of Breach

Any breach of this Agreement — including any violation of Sections 6, 7, 8, 10, or 11 — entitles Bassani Health to any or all of the following:

- Immediately suspend the Store's Reseller Code and cease processing pharmaceutical medicine orders without notice;
- Terminate this Agreement by written notice with immediate effect;
- Demand immediate return of any pharmaceutical medicines in the Store's possession not yet released to Named Patients;
- Recover all outstanding amounts owed, including legal costs on an attorney-and-own-client scale;
- Report the breach and the Store's identity to the appropriate authorities listed below; and
- Enforce all indemnity provisions in Section 13 without limitation.

12.2 Appropriate Regulatory & Law Enforcement Authorities

Authority	Jurisdiction / Role	Nature of Reportable Non-Compliance
SAHPRA	Primary regulator of medicines, dispensing, and pharmaceutical supply chains	Unlicensed dispensing; breach of Section 21 conditions; pharmaceutical medicine tampering; non-compliant storage or distribution
NDoH — National Department of Health	Oversight of pharmacy licensing and pharmacy-adjacent operations	Operations outside the scope of Bassani Health's DoH pharmacy licence authority
SAPC — South African Pharmacy Council	Regulation of pharmacy practice and pharmacy owner compliance	Misrepresentation of pharmacy status; breach of pharmacy council standards
SAPS — South African Police Service (including the Hawks / DPCI)	Criminal law enforcement; enforcement of the Drugs and Drug Trafficking Act, No. 140 of 1992	Possession of or dealing in illicit cannabis product; any criminal conduct connected with medicines or controlled substances
SARS — South African Revenue Service	Tax administration and financial crime investigation	Failure to declare income; tax evasion; fraudulent invoicing in connection with the Collection Point operation
CIPC — Companies and Intellectual Property Commission	Business registration and director compliance	Deregistered or non-compliant business entity operating as a Collection Point

12.3 Mandatory Reporting

In certain circumstances Bassani Health may be obligated under the Act or the Drugs Act to report non-compliant conduct to SAHPRA and/or SAPS regardless of the status of the commercial relationship. Bassani Health's pharmaceutical regulatory obligations take precedence over any commercial consideration.

SECTION 13: REPRESENTATIONS, WARRANTIES & INDEMNITY

13.1 Store Representations & Warranties

By executing this Agreement, the Store and its authorised signatory represent and warrant to Bassani Health that:

1. The Store is a lawfully registered and operating business entity in South Africa, in good standing with CIPC, SARS, and all applicable regulatory bodies.
2. All information provided in the Bassani Health Compliance Assessment is true, accurate, and complete in all material respects as at the Effective Date.
3. The Store is not subject to any current regulatory investigation, suspension, prosecution, or enforcement action by any authority.
4. The Store does not currently, and will not during the term of this Agreement, source, hold, display, distribute, or sell any cannabis-based medicine or cannabis-related product from any source other than Bassani Health (Pty) Ltd.
5. The Store has read and fully understands the legal framework in Section 2, including the Medicines Act, the Drugs Act, and POPIA.
6. The Store's authorised signatory has full legal capacity and authority to bind the Store to this Agreement.
7. The Store understands and accepts that its status as a pharmaceutical Collection Point is derived exclusively from Bassani Health's pharmaceutical licences and is entirely contingent on continued compliance with this Agreement.

13.2 Bassani Health Representations & Warranties

Bassani Health represents and warrants to the Store that:

1. Bassani Health holds all four licences listed in Section 4, which are active and in good standing as at the Effective Date.
2. Bassani Health's pharmaceutical cannabis-based medicines are manufactured in accordance with GMP standards at its Midrand facility and comply with all SAHPRA requirements.
3. Bassani Health will notify the Store in writing within five (5) business days if any of its pharmaceutical licences are suspended, revoked, or materially amended in a manner affecting the Store's Collection Point status.
4. Bassani Health will process and fulfil all valid pharmaceutical medicine orders in accordance with SOP-OPS-001 and the fulfilment process in Section 8.

13.3 Store Indemnity to Bassani Health

The Store irrevocably indemnifies and holds harmless Bassani Health, its directors, officers, employees, and agents from and against all losses, claims, damages, penalties, fines, regulatory sanctions, legal costs (on an attorney-and-own-client scale), and any other liability arising from or connected with:

13.3.1 Regulatory & Law Enforcement Indemnity

If the Store misrepresents itself as compliant, licensed, pharmaceutical-grade, or SAHPRA-approved; displays, presents, or reproduces any Bassani Health pharmaceutical licence; or commits any act or omission that triggers a SAHPRA investigation, NDoH inquiry, SAPS enforcement action, or any other regulatory proceeding that draws Bassani Health into proceedings or causes Bassani Health to incur regulatory response costs, legal costs, or reputational harm — the Store shall indemnify Bassani Health in full for all such costs and losses without any cap or limitation. Bassani Health's pharmaceutical licence stack is its primary commercial and competitive asset, and any misappropriation or damage to that asset through Store misrepresentation gives rise to an uncapped indemnity claim.

13.3.2 Illicit Stock Co-mingling Indemnity

If the Store holds illicit cannabis-based product from any source other than Bassani Health on the same premises as Bassani Health pharmaceutical medicines, and any authority seizes, questions, or takes enforcement action in respect of Bassani Health pharmaceutical medicines as part of a broader operation arising from the illicit stock, the Store shall indemnify Bassani Health in full for: (a) any pharmaceutical medicine confiscated or damaged; (b) all legal and regulatory costs incurred by Bassani Health; and (c) all reputational and commercial harm. This indemnity is uncapped and survives termination of this Agreement.

13.3.3 Patient & Third-Party Claims Indemnity

If the Store dispenses incorrectly, releases pharmaceutical medicine to an unverified person, fails to obtain a Patient Counselling Acknowledgement, makes clinical misrepresentations, or commits any act or omission causing harm to a Patient or third party — and any resulting claim or legal action is brought against the Store, Bassani Health, or both — the Store shall indemnify Bassani Health in full against all resulting liability, costs, and losses. Bassani Health's pharmaceutical dispensing liability ends at the Delivery Note. Liability arising from the Store's conduct at the Collection Point is the Store's sole responsibility.

13.3.4 Liability Exclusion — Unauthorised Third-Party Use of Dispensed Medicines

Bassani Health's pharmaceutical dispensing liability — in contract, delict, pharmaceutical law, or otherwise — is limited exclusively and absolutely to the Named Patient identified on the specific Script and Section 21 Authorisation under which the pharmaceutical medicine was dispensed. Bassani Health bears no liability whatsoever, and the Store irrevocably indemnifies Bassani Health in full, for any adverse medical event, injury, pharmaceutical reaction, harm, loss, or claim of any nature involving or suffered by any person who is not the Named Patient on the relevant Script and Authorisation.

This exclusion applies without limitation to:

- Any person to whom a Named Patient transfers, gifts, sells, lends, or otherwise makes available any portion of their dispensed pharmaceutical medicine — whether or not that person has a medical condition, has consulted a medical practitioner, or believes the medicine to be appropriate for their use;
- Any person who consumes any pharmaceutical cannabis-based medicine that was dispensed to a different Named Patient;
- Any person who obtains a pharmaceutical medicine through any channel other than a direct, verified release by the Store to the Named Patient against a valid Script and Section 21 Authorisation;

- Any Named Patient who uses their dispensed pharmaceutical medicine in a manner, dose, or frequency other than that prescribed by their Registered Medical Practitioner; and
- Any adverse outcome arising from the interaction of a dispensed pharmaceutical medicine with any other substance, medicine, or condition not disclosed to the Registered Medical Practitioner at the time of prescribing.

This clause exists because pharmaceutical cannabis-based medicines are prescription medicines dispensed for a specific patient's specific medical condition at a specific assessed dose. From the moment the Named Patient signs the Patient Counselling Acknowledgement and takes possession at the Collection Point, sole responsibility for appropriate use, safekeeping, and prevention of redistribution passes entirely to the Named Patient. Bassani Health's pharmaceutical liability footprint ends at the Delivery Note on one side and the verified patient identity check and signed Patient Counselling Acknowledgement on the other.

13.4 Bassani Health's Liability Cap

Notwithstanding any other provision, Bassani Health's total aggregate liability to the Store — whether in contract, delict, or otherwise — is limited to the invoice value of the specific pharmaceutical medicine order(s) directly in dispute. Bassani Health is not liable for any indirect, consequential, or economic losses suffered by the Store. The Store's indemnity obligations under Section 13.3 are uncapped where the underlying conduct constitutes a criminal offence under the Medicines Act or the Drugs Act.

13.5 Indemnity Procedure

Where Bassani Health invokes the indemnity under this Section 13, Bassani Health shall: (a) notify the Store in writing as soon as reasonably practicable; (b) provide reasonable particulars of the claim or event; and (c) afford the Store a reasonable opportunity to remedy a curable breach where applicable. This procedure does not limit Bassani Health's right to report conduct to regulatory or law enforcement authorities at any time.

SECTION 14: SIGNATURE & ACKNOWLEDGEMENT

By signing below, each party confirms that it has read, understood, and accepted all terms of this Store Onboarding & Partnership Agreement, including all appendices and schedules, and agrees to be bound by its terms from the Effective Date.

14.1 Store Details

Registered Business Name	
Trading Name (if different)	
CIPC Registration Number	
VAT Registration Number (if applicable)	
Registered Business Address	
Collection Point Address (if different)	
Authorised Signatory Full Name	
Authorised Signatory ID Number	
Authorised Signatory Title / Role	
Primary Contact Number	
Primary Email Address	
Assigned Reseller Code (Bassani use only)	

14.2 Store Signature

Signed at:		Date:	
Signature:		Full Name:

APPENDIX A: BASSANI HEALTH PHARMACEUTICAL MEDICINE SCHEDULE

All pharmaceutical cannabis-based medicines listed below are manufactured at Bassani Health's GMP-aligned facility in Midrand and dispensed exclusively against valid Scripts and SAHPRA Section 21 Authorisations. This schedule is updated periodically — Stores will be notified of all additions and discontinuations.

A.1 Current Pharmaceutical Medicines — Available Now

Pharmaceutical Medicine	Brand	Description	Schedule
Pharmaceutical-Grade Cannabis Flower	Bassani Health	Finished pharmaceutical-grade flower — multiple high-potency therapeutic strains; SAHPRA-compliant packaging; batch tracked	Schedule 6
Pre-Rolls — Ready to Dispense (RTD)	Bassani Health	Pharmacy-compliant, pre-dosed, RTD medical cannabis — batch tracked and individually serialised	Schedule 6
Wellness Tincture — Rapid Relief	CannaCrafters	THC:CBD 25 mg/ml 30 ml — formulated for Pain, Inflammation, Sleep, Anxiety; pharmaceutical-grade tincture	Schedule 6
Wellness Tincture — Ultra Pure	CannaCrafters	Full-spectrum CBD pharmaceutical oil 30 ml	Schedule 6
Edible Gummies — Medical Grade	Cannacraze	Grape, BerryBlast, Pineapple, Lime, Watermelon, Tootifrooti — precision-dosed 10 mg per unit	Schedule 6
Vape — Sleep Formula	CannaCrafters	Precision-dosed pharmaceutical THC vape 800 mg — sleep formulation	Schedule 6
Vape — Sunrise Formula	CannaCrafters	Pharmaceutical-grade THC therapeutic blend	Schedule 6
Vape — Calm Formula	CannaCrafters	Pharmaceutical THC 800 mg controlled-dose delivery	Schedule 6
Vape — Live Rosin Blend	CannaCrafters	Full-spectrum pharmaceutical live rosin extract	Schedule 6
THC Hash Wafer 48%	CannaCrafters	1 440 mg Delta-9 Controlled Pharmaceutical Drug Batch tracked	Schedule 6
THC Hash Wafer 42%	CannaCrafters	1 260 mg Delta-9 Controlled Pharmaceutical Drug Batch tracked	Schedule 6

A.2 Upcoming Pharmaceutical Medicines — Q2 & Q3 2026 Launch Pipeline

Pharmaceutical Medicine	Brand	Description	ETA
Premium Medical Gummies Range	CannaCrafters	Apple Harvest, Blissful Berry, Pineapple Delight, Tropical Breeze, Wild Strawberry — 25 mg CBD/25 mg THC precision-dosed 10 per pharmaceutical jar	Q2 2026
Finished-Dose Soft Gel Range	Cannati	Mixed Berry & Calm Live Rosin — 10 mg CBD / 10 mg THC controlled-release soft gel	Q3 2026
CBD Pharmaceutical Oil 2.0 — Full Spectrum	Cannati	480 mg cannabidiol full spectrum 30 ml pharmaceutical-grade oral medicine	Q3 2026
Calm Formula (CBG) Oil	Cannati	CBG-formulated pharmaceutical therapeutic range 10 ml	Q3 2026
Sleep Formula (CBN) Oil	Cannati	CBN-formulated pharmaceutical therapeutic range 10 ml	Q3 2026
Medical Cannabis Wellness Beverages	Cannacraze	Pharmaceutical cannabis-infused wellness beverages — Lemon Zone, Ginger Gold, Apple Drop 18+ only patient-dispensed	Q3 2026

All Schedule 6 pharmaceutical medicines require a valid Script and Section 21 Authorisation per Named Patient per medicine. Product availability is subject to change. Pricing is provided in the applicable price list. All medicines are for the exclusive therapeutic use of the Named Patient on the relevant prescription.

APPENDIX B: SAMPLE SECTION 21 PHARMACEUTICAL OUTCOME LETTER — REFERENCE EXAMPLE

The following is a reference example of a SAHPRA Section 21 Outcome Letter illustrating the format, fields, and authority of a valid Section 21 Authorisation for a pharmaceutical cannabis-based medicine. Every order under this Agreement must be backed by a current letter of this type for the specific Named Patient and pharmaceutical medicine. Together with the corresponding Script, this letter is the only documentation that verifies the lawfulness of a specific quantity of pharmaceutical medicine at a Collection Point.

EXAMPLE LETTER DETAILS

Letter Number	S2100016461
Date	20 November 2025
Status	APPROVED
Applicant Doctor	Dr Peter Robert Makhambeni
Named Patient	Ms Aimee Jade Nathen
Importing Entity	Bassani Medical (Pty) Ltd
Pharmaceutical Medicine	Tetrahydrocannabinol 5 000 mg
Approved Quantity	324 Packs (Pack Size: 5)
Validity	Six (6) months from date of letter
Signed by	Dr Shyamli Munbodh — Manager: Section 21 Category A Medicines; Ms Mahlodi Moropa — Final Approver

Key Observations for Stores:

- The letter is Named Patient-specific and pharmaceutical medicine-specific. It cannot be reused for any other patient or medicine.
- The letter specifies the exact pharmaceutical medicine and approved quantity. No deviation from either is permitted in any order under this Authorisation.
- The six-month validity is stated explicitly. Orders placed after expiry require a new Section 21 Authorisation.
- Only letters bearing the signatures of the SAHPRA Manager for Section 21 Category A Medicines and a Final Approver are valid.
- The Store must retain the original or certified copy of both the Section 21 Authorisation Letter and the corresponding Script for every Named Patient order, for a minimum of five (5) years. These documents — together with the signed Patient Counselling Acknowledgement — are the primary records a Store must produce if its pharmaceutical medicine stock is questioned by law enforcement or a regulatory authority.

APPENDIX C: BASSANI HEALTH PHARMACEUTICAL LICENCE REGISTER

IMPORTANT — FOR BASSANI HEALTH INTERNAL REFERENCE USE ONLY: This Appendix is not provided to Stores as an attachment to this Agreement. Stores may not reproduce, display, present, or use any Bassani Health pharmaceutical licence document or licence number for any purpose. Regulatory or law enforcement authorities requiring verification of Bassani Health's pharmaceutical licence status should be directed to info@bassanihealth.com or to the relevant issuing authority (SAHPRA, NDoH, SAPC).

The following constitutes Bassani Health's internal pharmaceutical licence register as at the Effective Date, retained by Bassani Health for operational and regulatory record-keeping purposes only.

Pharmaceutical Licence / Certification	Authority	Licence Number	Original Issue	Expiry
SAHPRA Section 22C — Cultivation Licence (Pharmaceutical Manufacturing Inputs)	SAHPRA	0000000078MC	19 Jul 2022	19 Jul 2027
SAHPRA Section 22C(1)(b) — Licence to Manufacture Medicines: Packer (fine distribution to retail pharmacies & others, pharmaceutical export)	SAHPRA	0000001473.-2	18 Nov 2024	18 Nov 2029
Department of Health — Manufacturing Pharmacy Licence	NDoH	GP00455M	—	19 Jul 2027
South African Pharmacy Council — A-Grade Pharmacy Owner Certification	SAPC	Y61015	—	31 Dec 2026

— END OF DOCUMENT —
